

# AI and Modernization Assessment

## 2-week entry engagement

Teams that need a first move without committing to a broad transformation program.

<b>Price posture</b>	Starting from \$15k; planning anchor only.
<b>Sample artifact</b>	Assessment roadmap with recommended pilot path and no-go boundaries.
<b>Scope boundary</b>	Diagnostic and planning engagement; not implementation, penetration testing, legal review, or compliance certification.

## Deliverables

- Risk map
- Use-case shortlist
- Integration seams
- Review-gate plan
- 90-day roadmap

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# .NET / SQL Modernization Blueprint

## Legacy-system risk reduction

Application owners facing rewrite pressure, undocumented rules, or fragile release paths.

<b>Price posture</b>	Starting from \$30k.
<b>Sample artifact</b>	Modernization blueprint with behavior-preservation checkpoints.
<b>Scope boundary</b>	Not a rewrite guarantee; implementation should follow validated scope and tests.

## Deliverables

- Parity-validation plan
- Stored-procedure risk summary
- Comparison-screen design
- Target architecture map
- Migration backlog

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# Human-Reviewed AI Workflow Accelerator

## Review-first pilot

Teams with one workflow where AI output can help but cannot be trusted blindly.

<b>Price posture</b>	Starting from \$55k.
<b>Sample artifact</b>	Review-state model and pilot workflow with visible evidence.
<b>Scope boundary</b>	Not a fully autonomous system; high-impact outputs stay human-reviewed.

## Deliverables

- Prompt contracts
- Retrieval pattern
- Reviewer UI spec
- Approval checkpoints
- Handoff model

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# Governed Knowledge / RAG Foundation

## Source-governed retrieval

Knowledge, support, compliance, product, or engineering teams with scattered internal context.

<b>Price posture</b>	Starting from \$75k.
<b>Sample artifact</b>	Governed knowledge pilot with approved, draft, and quarantined states.
<b>Scope boundary</b>	Not a promise that AI answers are always correct; outputs remain source-bound and reviewable.

## Deliverables

- Source policy
- Metadata schema
- Trust labels
- Retrieval architecture
- Evaluation checklist

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# AI Reviewer App MVP

## Internal AI product

Organizations ready to build a concrete internal AI tool rather than another detached chat surface.

<b>Price posture</b>	Starting from \$95k.
<b>Sample artifact</b>	MVP brief with reviewer states, audit trail, and release gate.
<b>Scope boundary</b>	Not a production outcome claim until deployed, tested, and reviewed in the client environment.

## Deliverables

- MVP scope
- UX flow
- Typed UI/API boundary
- Review queue
- Deployment notes

## CTA

Start with `/contact/?intent=assessment`. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# AI Evaluation and Reliability Program

## Measure before scaling

Teams already piloting AI but lacking measurable release gates and operational confidence.

<b>Price posture</b>	Starting from \$60k.
<b>Sample artifact</b>	Reliability plan with explicit fallback criteria.
<b>Scope boundary</b>	Not a safety certification or formal compliance certification.

## Deliverables

- Evaluation rubric
- Gold-answer set
- Blocked-action log design
- Fallback rules
- Release-gate worksheet

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.

# Fractional AI / Modernization Architect

## Ongoing delivery stewardship

Companies that need senior architecture pressure without hiring a full-time executive or launching a large consultancy program.

<b>Price posture</b>	Starting from \$45k per quarter.
<b>Sample artifact</b>	Quarterly architecture and AI governance decision log.
<b>Scope boundary</b>	Not a staff-augmentation bench or managed-service replacement.

## Deliverables

- Weekly reviews
- Decision memos
- Backlog repair
- Risk triage
- Executive summary

## CTA

Start with </contact/?intent=assessment>. Do not submit secrets, credentials, PHI, or confidential customer data into the public form.

## Claim boundary

This is a planning artifact, not a guarantee, certification, formal vendor partnership claim, or autonomous execution permission.
